

NUTRITION ORAL HEALTH AND ACTIVE PLAY POLICY

Mandatory – Quality Area 2

PURPOSE

Eureka Community Kindergarten Association Inc. (ECKA) acknowledges the importance of healthy eating, oral health and physical activity and its contribution to good health and overall wellbeing.

This policy will provide guidelines to:

- promote a healthy lifestyle and support to children, educators and families at the service, to eat nutritious food, maintain oral health and participate in physical activity and active play
- ensure national and state guidelines and recommendations about nutrition, oral health and physical activity are met
- ensure that the dietary and cultural needs of children and families are taken into consideration when planning menus and implementing nutrition, oral health and active play activities.

As a health promoting service, we will promote healthy eating and activity for children, educators, staff and families through learning, policies, creating a safe and healthy physical and social environment and developing community links and partnerships.

POLICY STATEMENT

1. VALUES

Eureka Community Kindergarten Association Inc. (ECKA) is committed to:

- creating policies and practices that promote a healthy lifestyle and ensure national and state guidelines and recommendations about safe food preparation, nutrition, oral health and physical activity are met
- promoting nutritious food and eating habits that will contribute to healthy growth and development in children
- providing a safe, supportive and social environment in which children can enjoy eating
- consulting and working collaboratively with families in regard to their child's nutrition and dietary requirements, including responding appropriately to food allergies and recognising cultural and religious practices and lifestyle choices
- ensuring that food and drink items provided by the service are consistent with national and state guidelines and recommendations
- providing children and families with formal and informal opportunities to learn about food, nutrition, oral health and physical activity
- encouraging physical activity by providing a range of active play experiences for all children at the service.
- promoting breastfeeding and where possible ensuring mothers have a quiet comfortable place to breastfeed if required and an appropriate place to store milk
- ensuring educators, staff, families and children are key partners in developing and promoting healthy eating and active play
- ensuring any sponsorship, advertisements or marketing of food and drinks are consistent with the service's healthy eating and active play policy.

2. SCOPE

This policy applies to the Approved Provider, Persons with Management or Control, Nominated Supervisor, Persons in Day-to-Day Charge, educators, staff, students on placement, volunteers, families, parents/guardians, children and others attending the programs and activities of Eureka Community Kindergarten Association Inc. (ECKA).

3. BACKGROUND AND LEGISLATION

Background

There are many benefits to promoting a healthy lifestyle in early childhood education and care settings, including the positive impact this has on each child's learning and development. Being made aware of positive eating behaviour, oral hygiene practices and the importance of physical activity from an early age can instil good habits that will remain throughout a person's life. Educators/staff are well placed to build this awareness among children and their families, while respecting lifestyle choices, and cultural and religious values.

As a health promoting service it is recognised that every member of the service impacts on children's health. Children, staff, educators and families can be supported to eat healthily, maintain good oral health and be physically active through teaching and learning opportunities, policies, creating a safe and healthy physical and social environment and developing community links and partnerships.

Nutrition

The foods we eat provide our body with the nutrients we need to stay healthy. Good nutrition is the balanced eating of a variety of foods, and is especially important for children as they require a large amount of nutrients for growth and development. Research has shown that, when offered a variety of healthy foods, children can and do make good choices. It is also important to provide preschool children with a good foundation in healthy eating, as most children have formed lifelong eating habits before they reach school age.

Oral health

Tooth decay is Australia's most prevalent health problem despite being largely preventable. It is important to note that oral health promotion is complementary to promoting healthy eating.

Oral health behaviours have a major influence on children's health and wellbeing and a direct impact on their growth and development. Oral diseases can negatively affect individuals through pain, discomfort, general health and quality of life. Poor oral health can limit a child's capacity in biting, chewing, smiling, speaking, and psychosocial wellbeing. The main oral health condition experienced by children is tooth decay affecting over half of all Australian children, making it five times more prevalent than asthma.

Active play

Active play (refer to *Definitions*) develops a strong and healthy body, builds motor and co-ordination skills, creates a sense of wellbeing and helps protect children from disease. Active play is about moving, being and doing.

A strong sense of health and wellbeing, supported by good nutrition and an active lifestyle, can provide children with confidence, energy and optimism that will contribute to their ability to concentrate, co-operate and learn (*Belonging, Being & Becoming – The Early Years Learning Framework for Australia*, p30 – refer to *Sources*). Learning about healthy lifestyles, including nutrition and active play, links directly to Outcome 3 in both the *Early Years Learning Framework* and the *Victorian Early Years Learning and Development Framework* (refer to *Sources*).

The Australian Government has produced guidelines, recommendations and resources for healthy eating and physical activity in early childhood settings, including the National Health and Medical Research Council's *Australian Dietary Guidelines* and *Infant Feeding Guidelines* (refer to *Sources*) and the *Get Up & Grow: Healthy Eating and Physical Activity for Early Childhood* resources (refer to *Sources*). Practical, healthy eating advice is also available to early childhood services and schools via a telephone advice line: the Victorian Healthy Eating Advisory Service (Healthy Together Healthy Eating Advisory Service – refer to *Sources*), run by Nutrition Australia. Early childhood education and care services can also register for the *Victorian Prevention and Health Promotion Achievement Program* (refer to *Sources*). This program is designed to create safe, healthy and friendly environments for learning, by promoting physical, mental and social health and wellbeing.

Progressive meal times

In recognising children as active participants in their own learning, children should be encouraged to make meaningful decisions about elements of their own education and care. Incorporating progressive meal times into the educational program allows children to choose to eat when they are hungry, rather than according to a timetable. Children can gather in small groups to enjoy meals together, without interrupting the needs and play of others. This also encourages quieter, more social and meaningful interactions at meal times and allows for a smoother flow throughout the day. Children can make decisions based on their own needs, and can be supported to access food and water throughout the day by educators/staff, who actively participate in meal times.

A decision with respect to incorporating progressive meal times into the educational program must take into account the needs of all children at the service, particularly children with specific medical conditions such as diabetes. The National Regulations require services to ensure that children with medical conditions are able to participate fully in the educational program, and are not discriminated against in any way.

Legislation and standards

Relevant legislation and standards include but are not limited to:

- *Australia New Zealand Food Standards Code*
- *Child Wellbeing and Safety Act 2005*
- *Disability Discrimination Act 1992 (Cth)*
- *Education and Care Services National Law Act 2010*
- *Education and Care Services National Regulations 2011: Regulations 77–78, 79–80 (if the service provides food), 168*
- *Equal Opportunity Act 2010 (Vic)*
- *Food Act 1984 (Vic)*
- *National Quality Standard, Quality Area 2: Children’s Health and Safety*
- *Quality Area 6- Collaborative Partnerships with Families and Communities*
- *Quality Area 7 – Leadership and Service Management*
- *Occupational Health and Safety Act 2004*

The most current amendments to listed legislation can be found at:

- Victorian Legislation – Victorian Law Today: <http://www.legislation.vic.gov.au/>
- Commonwealth Legislation – Comlaw: <http://www.comlaw.gov.au/>

4. DEFINITIONS

The terms defined in this section relate specifically to this policy. For commonly used terms e.g. Approved Provider, Nominated Supervisor, Regulatory Authority etc. refer to the *General Definitions* section of this manual.

Active play: Large muscle-based activities that are essential for a child’s social, emotional, cognitive and physical growth and development.

- **Child-initiated active play** is developed by the child through exploration of the outdoor environment, equipment and games.
- **Adult-guided active play** encourages children’s physical development through promoting movement skills in a non-competitive environment.
- **Physical activity** includes sport, incidental exercise and many forms of recreation.

Adequate supervision: (In relation to this policy) **supervision** entails all children (individuals and groups) in all areas of the service, being in sight and/or hearing of an educator at all times including during toileting, sleep, rest and transition routines. Services are required to comply with the legislative

requirements for educator-to-child ratios at all times. Supervision contributes to protecting children from hazards that may emerge in play, including hazards created by the equipment used.

Adequate supervision refers to constant, active and diligent supervision of every child at the service. Adequate supervision requires that educators are always in a position to observe each child, respond to individual needs, and immediately intervene if necessary. Variables affecting supervision levels include:

- number, age and abilities of children
- number and positioning of educators
- current activity of each child
- areas in which the children are engaged in an activity (visibility and accessibility)
- developmental profile of each child and of the group of children
- experience, knowledge and skill of each educator
- need for educators to move between areas (effective communication strategies).

‘Discretionary’ foods and drinks: Food and drink items that are high in fat, sugar and salt, and that contain minimal vitamins, minerals or fibre. These can also be referred to as ‘sometimes’ foods and drinks.

Healthy eating: Describes eating patterns that provide all the recommended nutrients for growth and development, and good health and wellbeing, now and in the future. It also refers to preparing, serving and eating food in a way that recognises its importance as a social and cultural activity.

Healthy eating is eating a wide variety of foods from the five food groups each day. These are:

- vegetables and legumes/beans
- fruit
- grain (cereal) foods, mostly wholegrain
- lean meat, poultry, fish, eggs, tofu, nuts and seeds, and legumes/beans
- milk, yoghurt, cheese and alternatives

Nutrition: The process of providing or receiving nourishing substances.

Oral health: The absence of active disease in the mouth. Oral health is fundamental to overall health, wellbeing and quality of life. A healthy mouth enables people to eat, speak and socialise without pain, discomfort or embarrassment.

‘Sometimes’ foods and drinks: Food and drink items that are high in fat, sugar and salt, and that contain minimal vitamins, minerals or fibre. Examples include: confectionary, museli bars, biscuits, cakes, pastries, pies, processed meats, potato crisps, savoury snacks and sweet drinks like soft drink, cordial and fruit juice

PROCEDURES

The Approved Provider is responsible for:

- ensuring that the service environment and educational program supports children and families to make healthy choices for eating, oral health, and active play
- providing ongoing information, resources and support to families, to assist in the promotion of optimum health, including oral health, for young children (refer to *Sources*)
- ensuring that educators are supported to be physically active and minimise sedentary behaviour, both inside and outside of work hours
- recognising families, educators and staff as role models and encouraging them to bring/use foods and drinks that are in line with the service's Nutrition, Oral Health and Active Play Policy
- ensuring the implementation of adequate health and hygiene procedures, and safe practices for handling, preparing and storing food, to minimise risks to children being educated and cared for by the service (Regulation 77) (refer to *Hygiene Policy* and *Food Safety Policy*)
- ensuring that all educators/staff comply with the *Food Safety Act*, and this policy and its requirements are included in staff orientation processes
- ensuring all educators, staff and families are provided with information about policy requirements and are given opportunity to be involved in policy reviews
- ensuring that all educators/staff are aware of a child's food allergies and/or other medical conditions on enrolment or on initial diagnosis
- ensuring measures are in place to prevent cross-contamination of any food given to children with diagnosed food allergies and/or diabetes (refer to *Anaphylaxis Policy*, *Asthma Policy*, *Diabetes Policy* and *Food Safety Policy*)
- ensuring that all educators/staff are aware of, and plan for, the dietary needs of children diagnosed with diabetes (refer to *Diabetes Policy*)
- providing healthy suggestions for morning/afternoon tea and/or lunchboxes for children, including fruit and vegetables and water rather than 'sometimes' foods and drinks
- discouraging parents/guardians from providing children with 'sometimes' foods and drinks (refer to *Definitions*)
- ensuring that fresh drinking water (preferably tap water) is readily available at all times, and reminding children to drink water throughout the day, including at snack/lunch times (Regulation 78(1)(a))) Only tap water and plain milk are encouraged
- ensuring that food and drinks are available to children at frequent and regular intervals throughout the day (Regulation 78(1)(b))
- ensuring that celebrations, fundraising activities and other service events are consistent with the purposes and values of this policy and service procedures promoting healthy food options and discouraging sometimes foods.
- ensuring that staff and educators are supported by having healthy food options in the staff room, for staff meetings and for professional learning.
- ensuring service facilities and equipment enable active travel and road safety for children, staff, educators and families
- ensuring that active travel is promoted and encouraged and local facilities are used by the service to encourage physical activity
- ensuring that the layout of the building, grounds and equipment encourages physical activity and movement all day and is inclusive of all children
- ensuring educators are supported to access resources, tools and professional learning to enhance their knowledge and capacity to develop adult guided and child initiated active play experiences and promote healthy eating, and oral health.

Where food is provided at the service:

- allocating finances to ensure the provision of nutritionally-balanced and culturally-sensitive meals, in line with the Australian Dietary Guidelines, as required
- ensuring that staff who are responsible for menu planning participate in regular nutrition and safe food handling training, and are kept up to date with current research, knowledge and best practice
- ensuring that food and drink provided by the service is nutritious, adequate in quantity and appropriate to children's growth and development, and meets any specific cultural, religious or health needs (Regulation 79(1))
- ensuring that a weekly menu is displayed in a location accessible to parents/guardians, and that it accurately describes the food and drinks to be provided by the service each day (Regulation 80(1)).
- ensuring the service menu is assessed by the Healthy Eating Advisory Service and meets the criteria determined

The Nominated Supervisor and Persons in Day-to-Day Charge are responsible for:

- ensuring that the service environment and the educational program supports children and families to make healthy choices for eating, oral health, and active play
- embedding opportunities to learn about healthy eating and oral health and the importance of activity in the educational program, throughout the year.
- ensuring oral hygiene practices are undertaken at the service where appropriate
- ensuring families experiences, expertise and interests are drawn upon to support healthy eating, oral health and active play initiatives
- ensuring the implementation of adequate health and hygiene procedures, and safe practices for handling, preparing and storing food, to minimise risks to children being educated and cared for by the service (Regulation 77) (refer to *Hygiene Policy* and *Food Safety Policy*)
- ensuring that all educators/staff comply with the *Food Safety Act*
- ensuring that all educators/staff are aware of a child's food allergies and/or other medical conditions on enrolment or on initial diagnosis
- ensuring measures are in place to prevent cross-contamination of any food given to children with diagnosed food allergies and/or diabetes (refer to *Anaphylaxis Policy*, *Asthma Policy*, *Diabetes Policy* and *Food Safety Policy*)
- ensuring that all educators/staff are aware of, and plan for, the dietary needs of children diagnosed with diabetes (refer to *Diabetes Policy*)
- ensuring that fresh drinking water (preferably tap water) is readily available at all times, and reminding children to drink water throughout the day, including at snack/lunch times (Regulation 78(1)(a)). Only tap water and plain milk are encouraged
- ensuring that food and drinks are available to children at frequent and regular intervals throughout the day (Regulation 78(1)(b))
- ensuring that food and drink are not used as an incentive, bribe or reward at any time.
- registering and implementing the Achievement Program where/if possible (refer to *Sources*)
- ensuring that cultural and religious practices/requirements of families are accommodated to support children's learning and development
- developing and reviewing guidelines for celebrations, fundraising activities and other service events in consultation with educators, staff, parents/guardians and families to focus on healthy alternatives
- developing links with local and regional health services, community organisations and businesses that provide expertise, resources and support for healthy eating, oral health and active play.
- providing families with information on healthy eating and active play and where to access relevant services.
- promoting local recreation facilities, parks and bike paths to families to encourage physical activity

- Ensuring cooking and food experiences provide opportunities for children to taste and learn about a variety of foods and focus on healthy food options, helping children and families distinguish between healthy foods and sometimes foods
- Ensuring healthy body image and an enjoyment of eating are encouraged by the service
- Involving children in healthy food experiences through growing, cooking and shopping where possible
- Ensuring that outdoor play equipment is adaptable and, where practicable, moveable, to encourage change and to challenge children
- Ensuring active play experiences are inclusive of the diversity and abilities of all children
- Ensuring educators and staff involve children in planning for active play and physical activity experiences both indoors and outdoors
- ensuring that children are not sedentary or inactive for more than one hour at a time, with the exception of sleeping
- Ensuring child-initiated and adult-guided active play and physical activity experiences, which challenge and encourage children to explore, extend and test limits, are planned and provided on a daily basis as part of the educational plan

Where food is provided at the service:

- managing the service's food budget
- ensuring that food and drink provided by the service is nutritious, adequate in quantity and appropriate to children's growth and development, and meets any specific cultural, religious or health needs (Regulation 79(2))
- ensuring that a weekly menu is displayed in a location accessible to parents/guardians, and that it accurately describes the food and drinks to be provided by the service each day (Regulation 80(1))
- ensuring that the service is registered and working in line with the *Food Safety Act* and National Regulations
- ensuring that the cook, and any staff involved in food preparation, serving and storage, comply with the *Food Safety Act*
- facilitating training of staff to assist in compliance with the *Food Safety Act* e.g. safe food handling courses.

All educators/staff are responsible for:

- complying with the service's *Nutrition Oral Health and Active Play Policy* and with the *Food Safety Act*
- implementing adequate health and hygiene procedures, and safe practices for handling, preparing and storing food, to minimise risks to children (refer to *Hygiene Policy* and *Food Safety Policy*)
- being aware of a child's food allergies and/or other medical conditions on enrolment at the service or on initial diagnosis
- implementing measures to prevent cross-contamination of any food given to children with diagnosed food allergies and/or diabetes (refer to *Anaphylaxis Policy*, *Asthma Policy*, *Diabetes Policy* and *Food Safety Policy*)
- being aware of, and planning for, the dietary needs of all children
- ensuring that the service environment and the educational program supports children and families to make healthy choices for eating, oral health and active play
- discussing healthy eating choices with children, introducing the concept of 'sometimes' foods and drinks, and role-modelling positive behaviours exploring and discussing diverse cultural, religious, social and family lifestyles
- considering this policy when organising excursions and service events
- supporting students and volunteers to comply with this policy while at the service
- keeping parents/guardians informed of current information relating to healthy eating, oral health and active play

- ensuring that fresh drinking water (preferably tap water) is readily available at all times, and reminding children to drink regularly throughout the day, including at snack/meal times
- ensuring that children can readily access their own clearly labelled drink containers (where this is a service practice)
- providing food and drinks at regular intervals, and encouraging children to actively participate in, and enjoy, snack/meal times without feeling rushed
- providing opportunities for children to learn about, and develop skills for oral health through the educational program
- providing adequate supervision (refer to *Definitions*) for all children during meal/snack times
- encouraging children to be independent at snack/meal times e.g. opening lunchboxes, pouring drinks, self-feeding, serving and using utensils in a culturally-sensitive way
- planning and providing outdoor, active play that is stimulating, promotes skill development, considers safety issues and provides adequate supervision (refer to *Definitions*)
- considering opportunities for children to be physically active indoors, particularly in adverse weather conditions
- providing daily opportunities for all children to participate in age-appropriate active play
- acting as positive role models by engaging in physical activity
- ensuring screen based activities do not exceed the recommendations in the Australian 24-Hour Movement Guidelines for the Early Years (birth to 5 years)
- providing age-appropriate traffic safety education, including pedestrian and passenger safety to both children and parents/guardians at the service
- promoting safe behaviour including how to use equipment safely through daily practice as part of the program.

Where food is provided at the service:

- displaying menus, sharing recipes and encouraging feedback about the food provided at the service.

Parents/guardians are responsible for:

- complying with the requirements of this policy
- providing details of specific nutritional/dietary requirements, including the need to accommodate cultural or religious practices or food allergies, on their child's enrolment form, and discussing these with the Nominated Supervisor prior to the child's commencement at the service, and if requirements change over time (refer to *Anaphylaxis Policy*, *Asthma Policy* and *Diabetes Policy*)
- communicating regularly with educators/staff regarding children's specific nutritional requirements and dietary needs, including food preferences
- encouraging their child/ren to drink an adequate amount of water (preferably tap water) and discouraging 'discretionary' drinks
- providing healthy, nutritious food for snacks/meals, including fruits and vegetables in line with the service's *Nutrition, Oral Health and Active Play* policy where applicable
- providing healthy, nutritious food, including fruits or vegetables for sharing at morning or afternoon tea, where applicable
- providing nutritious food and drinks for celebrations, fundraising activities and service events, consistent with service policy
- encouraging children to exercise by engaging in active play, and walking or riding a bike to the service where appropriate
- discussing appropriate road traffic safety and car safety practices, and role-modelling this behaviour.
- dressing their child/ren so they can engage safely in active play.

Volunteers and students, while at the service, are responsible for following this policy and its procedures.

Evaluation

In order to assess whether the values and purposes of the policy have been achieved, the Approved Provider will:

- regularly seek feedback from educators, staff, parents/guardians, children, management and all affected by the policy regarding its effectiveness
- monitor the implementation, compliance, complaints and incidents in relation to this policy
- keep the policy up to date with current legislation, research, policy and best practice
- revise the policy and procedures as part of the service's policy review cycle, or as required
- notify parents/guardians at least 14 days before making any change to this policy or its procedures unless a lesser period is necessary because of a risk.
