BACKGROUND AND LEGISLATION

BACKGROUND

The United Nations Convention on the Rights of the Child is founded on respect for the dignity and worth of each individual, regardless of race, colour, gender, language, religion, opinions, wealth, birth status or ability. When children experience nurturing and respectful reciprocal relationships with educators, they develop an understanding of themselves as competent, capable and respected. Relationships are the foundation for the construction of identity, and help shape children's thinking about who they are, how they belong and what influences them [Early Years Learning Framework, p. 20; Framework for School Age Care, p. 19]

'Constructive everyday interactions and shared learning opportunities form the basis of equitable, respectful and reciprocal relationships between educators and children. Educators who are actively engaged in children's learning and share decision-making with them, use their everyday interactions during play, routines and ongoing projects to stimulate children's thinking and to enrich their learning. These relationships provide a solid foundation from which to guide and support children as they develop the self-confidence and skills to manage their own behaviour, make decisions and relate positively and effectively to others.' (*Guide to National Quality Framework – refer to Sources*)

Child Safe Standard 3 requires services to have strategies to empower children about their rights, ensure children can participate in decisions affecting them and are taken seriously. When children feel respected and valued, they are much more likely to speak up about issues of safety and wellbeing. Enabling and promoting empowerment and the participation of children within a service has multiple benefits in addition to enhancing the safety of children, including demonstrating a commitment to upholding the rights of children, checking that what the service is doing is what children want and building the communication and leadership skills of children.

In developing an *Interactions with Children Policy*, early childhood education and care services must review and reflect on the philosophy, beliefs and values of the service, particularly with regard to the relationships with children. The development of this policy should also be informed by the service's *Code of Conduct Policy*.

DEFINITIONS

The terms defined in this section relate specifically to this policy. For regularly used terms e.g. Approved provider, Nominated supervisor, Notifiable complaints, Serious incidents, Duty of care, etc. refer to the Definitions file of the ECKA Policy catalogue.

Adequate supervision: entails all children (individuals and groups) in all areas of the service, being in sight and/or hearing of an educator at all times including during toileting, sleep, rest and transition routines. Services are required to comply with the legislative requirements for educator-to-child ratios at all times. Supervision contributes to protecting children from hazards that may emerge in play, including hazards created by the equipment used.

Adequate supervision refers to constant, active and diligent supervision of every child at the service. Adequate supervision requires that educators are always in a position to observe each child, respond to individual needs and immediately intervene if necessary. Variables affecting supervision levels include:

- number, age and abilities of children
- number and positioning of educators
- current activity of each child
- areas in which the children are engaged in an activity (visibility and accessibility)
- developmental profile of each child and of the group of children
- experience, knowledge and skill of each educator
- need for educators to move between areas (effective communication strategies).

Behaviour guidance: a means of assisting children in a positive and effective ways to help children gain understanding and learn skills that will help them learn to manage their own behaviour.

Emotional Support plan: A plan that documents strategies to assist an educator in guiding a child with diagnosed behavioural difficulties or challenging behaviours to self-manage their behaviour. The plan is developed in consultation with the nominated supervisor, early childhood teachers, educators, parents/guardians and families, and other professional support agencies as applicable.

Challenging behaviour: behaviour that can be described as:

- infringes on the rights of others
- disrupts others or causes disputes between children
- causes harm or risk to the child, other children, adults or living things
- is destructive to the environment and/or equipment
- inhibits the child's learning and relationship with others
- a child presenting as shy, withdrawn or excessively passive in a way which is inhibiting their learning and/or development
- is inappropriate relative to the child's developmental age and background.

Inclusion Support Program (ISP): is a key component of the Government's Child Care Safety Net. The program provides support for eligible mainstream Early Childhood Education and Care services to build their capacity and capability to include children with additional needs, alongside their typically developing peers, so all children have genuine opportunities to access, participate and achieve positive learning outcomes. For more information visit: www.dese.gov.au

Kindergarten Inclusion Support Program (KIS): Supports funded kindergartens to plan and implement a program that is responsive to the individual abilities, interests and needs of children with a disability, developmental delay or complex medical needs. Long Day Care services can apply for the KIS program for their Victorian Government-funded kindergarten programs.

Program Support Groups (PSG): A program support group brings together key people to support the inclusion of children with disability or developmental delay, or complex medical needs, from the time of enrolment at kindergarten until they move to school. The group may include:

- the early childhood teacher
- the child's parent/carer(s)
- early childhood intervention professionals

- a preschool field officer
- medical practitioners, therapists or other allied health professionals
- a support person – if the child’s parent/carer(s) chooses to use one.

Mental health: In early childhood, a child’s mental health is understood as a child’s ability to ‘experience, regulate and express emotions; form close and secure interpersonal relationships; and explore the environment and learn – all in the context of family, community and cultural expectations for young children. Infant mental health is synonymous with healthy social and emotional development. <https://beyou.edu.au/>

Preschool Field Officer (PSFO) Program: The role of the PSFO Program to support the access and participation of children with additional needs in their kindergarten program. For more information visit: www.education.vic.gov.au
